POLICY

1. School Profile

We are a medium-sized comprehensive secondary school, located in the Dandenong Ranges, 40 kilometres east of Melbourne. The school is in a magnificent mountain setting amongst the slopes and mountain ash on the edge of the Sherbrooke Forest. There are beautiful views of the surrounding Dandenongs and the site integrates well with the adjoining Upwey-Tecoma Recreational Reserve and facilities.

Established in 1937, our school has a strong sense of community and a history in the provision of education in the Dandenong Ranges. We are a school where successive generations of families have been educated and a school to which they proudly return. Upwey High School provides educational pathways for students in VCE, VET and VCAL programs, ensuring that the needs of all students are met.

2. School values, philosophy and vision

Our school values are: Aspiration, Respect and Kindness. We aim to develop students who will be resilient and responsible, highly motivated lifelong learners. Through the establishment of positive relationships and high expectations, students will be encouraged to reach their full potential.

Upwey High School affirms democratic principles and our school vision through our policies and processes. In all documents, in all practice by students and teachers, in work with the School Council and the community, in all teaching and learning programs, in all school initiatives, in all internal and external interactions, in all organisational structures and practices democratic principles guide our work and the vision of the school sits at the centre.

We expect our work to align with the school vision. Regular evaluation processes will be in place to measure performance in all areas of the school with respect to the implementation of the vision and values of the school.

The process at our school can be represented as the vision and values at the centre of a circle. As a further outer ring will be a set of practices. A detailed list of school policies will sit within this framework.

In all work in the school, the question '*Is this work or process in line with the school vision and values?*' This question will be a fundamental part of the practice of all leaders in the school.

3. Wellbeing and engagement strategies

Upwey High School strives to provide a wide range of curriculum offerings and extra curricula activities to better engage students and improve their outcomes. We recognise the need to support the whole student across the five dimensions of health and wellbeing:

- *engagement in learning*
- *social and emotional wellbeing*
- *the provision of supportive relationships*
- *the promotion of physical health*
- *ensuring the safety and material wellbeing of students*

The challenge for Upwey is to provide different strategies and approaches, tailored to individual needs. The development of work-readiness skills is essential and needs to be started at the earliest opportunity. Through the provision of quality learning and teaching, delivered in 21st century facilities, we provide educational pathways for students in academic and vocational areas whilst providing a broad range of co-curricular activities allowing us to ensure the needs of all of our students are catered for.
